Github: <https://github.com/missjody>

## SUMMARY

Web Developer with an eye for design and ability to make it into reality. Recent graduate of Denver University's Full Stack Bootcamp. Team player, strong written and verbal communication skills, adaptable under pressure.

## TECHNICAL SKILLS

JavaScript, CSS, HTML, Node JS, Express JS, Mongoose/MongoDB, React JS

## PROJECTS

Employee Directory | Repo: <https://bit.ly/3aMyi2S> | Link: <https://bit.ly/2V6OyVJ>

- React application that makes an API call to create a faked directory of employees to search through
- Tools/Languages Used: React, Axios, Materialize

Streamer | Repo: <https://bit.ly/2ReKamG> | Link: <https://bit.ly/2UHqLNk>

- Password protect application allows users to search for films and tv shows and save them to their watching, to watch, or have watched lists. Makes use of server-side and third-party APIs.
- Tools/Languages Used: MySQL, Owl Carousel, Granim JS, Chart JS, Materialize

Dessert Search | Repo: <http://bit.ly/2ugYtyE> | Link: <http://bit.ly/2GXqKwQ>

- Application allows the user to enter dessert related search terms that then brings up three recipes for them to try. Previous searches are then saved to a sidebar. Set up back end calls to the API for recipe search. Implemented a predictive search bar.
- Tools/Languages Used: Skeleton, Multiple API calls
